

767-200ER BBJ

SkyLady

P4-CLA

Redefining wide-body long-range VIP travel

Designed for experienced VIP travellers and private markets, Comlux SkyLady delivers top-end comfort and luxury, the latest in-flight connectivity, a new air purifying system via ionisation, all combined with long-range capability. With its 177 m² / 1900 ft² of cabin floor area, the newly refurbished VIP cabin combines the benefits of the widebody aircraft – such as comfort, space, and privacy – to produce a consistently harmonious passenger experience. It is equipped with the latest and fastest in-flight 2KU band connectivity for high-speed internet and non-stop streaming for all passengers.
